

DARK HARBOR 20

The Dark Harbor 20

Pendleton Yacht Yard is reviving this iconic One-Design racing class with a twist. Traditional carvel-planked hulls are now being built in fiberglass and finished in gelcoat or awlgrip for a durable and low-maintenance finish.

The fiberglass hulls have been designed to match the weight and stability of the original fleet. New boats can race with the existing fleet on an equal basis, preserving the competitive nature of this esteemed One-Design fleet.

Sparkman & Stevens design No. 68, the Dark Harbor 20, has been a tradition in Penobscot Bay, Maine since the 1930s. She combines speed, ease of handling, comfort and beauty. Whether she's out on a day sail or racing in Gilkey's Harbor, her long overhangs and sleek lines are unmistakable.

At Pendleton Yacht Yard, we service and maintain the largest fleet of Dark Harbor 20s. We specialize in building, restoration, refit, and repair of these classic vessels.

Own a piece of yachting history today.
